

# Revitalising Eye Booster

ASTON FW154/08

Tired eyes? Use this roll-on to quickly energise and instantly lift the skin under the eyes.

This multifunctional formulation helps boost microcirculation to tackle dark circles and puffiness as well as utilising anti-ageing materials to tackle this wrinkle-prone area.

Containing:

- **Glycolift** – Glycolift provides instant tensing to the skin, offering the perception of a firming effect, and providing anti-pollution properties.
- **Biogenic Caffeine-210** – Caffeine is used in cosmetics to enhance microcirculation but has poor solubility in water. This material uses a novel oligomer complex to aid in water solubility.
- **DermaPep A350** - A multifunctional retinoic acid-like tripeptide that is very effective at reversing age-related changes, without the irritation of retinoic acid.

# Revitalising Eye Booster

ASTON FW154/08

PHASE	INGREDIENT	SUPPLIER	%	COMPOSITION	FUNCTION
A	<b>D. I. WATER</b>		58.90	Aqua	Solvent
A	<b>LAGOON WATER OF POLYNESIA 1.5P</b>	Aston/ Solabia	5.00	Maris Aqua	Water from the lagoons of the sacred island of Raiatea in Polynesia.
A	<b>ASPARLYNE</b>	Aston/ Solabia	4.00	Lysine Aspartate, Aqua	A 50% solution of L-Lysine Aspartate. Asparlyne is recommended as an "anti-fatigue" and "anti-stress" ingredient as it offers a triple action against skin fatigue.
A	<b>GLYCOLYSAT OF EYEBRIGHT UP</b>	Aston/ Solabia	0.50	Butylene Glycol, Aqua, Euphrasia Officinalis Extract	An extract of a yellow and lilac flower, which is used against conjunctivitis, allergies and ocular damage.
A	<b>CUIVRIDONE</b>	Aston/ Solabia	0.10	Copper PCA	Copper is one of the body's essential trace elements and can reduce the level of skin sebum. Cuivridone has a characteristic blue lagoon colour.
A	<b>LIME PEARL AF</b>	Southern Cross Botanicals	2.00	Glycerin, Aqua, Microcitrus Australasica Fruit Extract	An extract from Caviar Lime, a fruit that is endemic to the rainforests of Australia. Caviar Lime is naturally rich in Alpha Hydroxy-Acids (AHAs) which gently improve skin exfoliation.
A	<b>D-GLYCARGINE</b>	Aston/ Solabia	2.00	Aqua, Arginine PCA	A novel anti-ageing ingredient which fights against glycation to help to recover skin firmness.
A	<b>DERMAPEP A350</b>	Aston/ Miwon	2.00	Myristoyl Tripeptide-31, Butylene Glycol	A multifunctional retinoic-acid like tripeptide that is very effective at reversing age-related changes, without the irritation of retinoic acid.
A	<b>EUXYL K712</b>	Schülke	0.50	Sodium Benzoate, Potassium Sorbate, Aqua	Preservative
B	<b>BIOGENIC CAFFEINE-210</b>	Aston/ BioGenics	5.00	Caffeine, Maltodextrin, Xanthan Gum, Hydroxyethylcellulose	Caffeine is used in cosmetics to enhance microcirculation but has poor solubility in water. This material uses a novel oligomer complex to aid in water solubility.
C	<b>GLYCOLIFT</b>	Aston/ Solabia	20.00	Biosaccharide Gum-4, Aqua, Alpha-Glucan Oligosaccharide, Propanediol, Algin	Glycolift provides an instant tensing/smooth action to the skin, offer the perception of a firming effect, and provide anti-pollution properties.

## METHOD

- 1) Combine As and paddle stir until homogeneous
- 2) Add B and stir until fully dissolved
- 3) Add C and stir until homogeneous
