

Fruity Recovery

Facial Oil with Estimated SPF 15

ASTON KK146/03

Give your face a fruity boost with 3 supercritical CO₂ extracts of berry seeds.

This facial oil will improve the condition and healthy look of your face as well as protect against harmful UV radiation.

Containing:

- **SUMMER VITA Strawberry Seed Oil** – Supercritical CO₂ extract of Strawberry Seeds that contains the nutritious fatty acids - linoleic, alpha-linolenic, oleic acid and antioxidants in a concentrated form. It is an ideal ingredient for invigorating stressed skin and for nourishing all types of skin.
- **RED ALFA Lingonberry Seed Oil** – Supercritical CO₂ extract of Lingonberry Seeds, rich in essential fatty acids (up to 85% of total fatty acids), plant sterols and antioxidants. It has the highest content of alpha-linolenic acid among the berry seed oils.
- **RED GAMMA Raspberry Seed Oil** – Supercritical CO₂ extract of Raspberry Seeds which contains the highest natural concentration of γ -tocopherol in free form. Optimal ingredient for protecting skin from free radicals and UV radiation.
- **Lipex SheaLight** – Eco-designed shea butter ester with a light, non-greasy feel. It is an ideal ingredient for premium sun care.
- **OmegaLight**– Unique, patented combination of piperonyl alcohol and linoleic acid obtained via enzymatic reaction. It helps to illuminate the skin, clarify and eliminate dark spots and prevent post-inflammatory hyperpigmentation.

Fruity Recovery

Facial Oil with Estimated SPF 15

ASTON KK146/03

PHASE	INGREDIENT	SUPPLIER	%	COMPOSITION	FUNCTION
A	LIPEX SHEALIGHT	Aston/ AAK	84.00	Shea Butter Ethyl Esters	Eco-designed shea butter ester with a light, non-greasy feel. It is an ideal ingredient for premium sun care.
A	MFSORB 502	Aston/ MFCI	2.00	Butyl Methoxydibenzoylmethane	Organic UVA filter (Avobenzene).
A	OMEGALIGHT	Aston/ Solabia	2.00	Dicaprylyl Ether, Safflower Seed Oil Piperonyl Esters	Patented combination of Piperonyl Alcohol and Linoleic Acid. Helps to illuminate the skin, clarify and eliminate dark spots. Prevent post-inflammatory hyperpigmentation.
A	LIPEX SHEA TRIS	Aston/ AAK	0.50	Butyrospermum Parkii (Shea) Butter Extract	Concentrate of shea butter triterpene esters (50 - 65 %). It provides protection against environmental stress . Increases epidermal thickness by 25 % and content of collagen through the deactivation of the MMP-3 genes. Reduces the inflammation markers TNF- α and PGE-2.
A	VITASKIN E	Aston/ Solabia	0.50	Raspberry Seed Oil/Tocopherol Succinate Aminopropanediol Esters	Ecocert approved, obtained via solvent-free enzymatic biocatalysis from Raspberry Seed Oil and the Succinate of Vitamin E. Helps to repair the skin's stratum corneum, reconstruct dense support tissue.
B	MFSORB 505	Aston/ MFCI	4.30	Ethylhexyl Methoxycinnamate	Organic UVB filter (OMC).
B	MFSORB 104	Aston/ MFCI	3.50	Octocrylene	Organic UVA and UVB filter. Helps stabilise Avobenzene.
B	SUMMER VITA STRAWBERRY SEED OIL	Aston/ Aromtech	1.00	Fragaria Ananassa (Strawberry) Seed Oil	Supercritical CO ₂ extract of Strawberry Seeds. Contains the nutritious fatty acids - linoleic, alpha-linolenic, oleic acid and antioxidants in a concentrated form. It is an ideal ingredient for invigorating stressed skin and for nourishing all types of skin.
B	RED ALFA LINGONBERRY SEED OIL	Aston/ Aromtech	1.00	Vaccinium Vitis-Idaea Seed Oil	Supercritical CO ₂ extract of Lingonberry Seeds, rich in essential fatty acids, plant sterols and antioxidants. Has the highest content of alpha-linolenic acid among the berry seed oils.
B	RED GAMMA RASPBERRY SEED OIL	Aston/ Aromtech	1.00	Rubus Idaeus (Raspberry) Seed Oil	Supercritical CO ₂ extract of Raspberry Seeds. It has the highest natural concentration of gamma-tocopherol in free form and is thus an optimal ingredient for protecting skin from free radicals and UV radiation.
B	FRAGRANCE		0.20	Parfum	Guarana Fragrance.

METHOD

- 1) Combine As, heat to 55°C and stir until homogeneous.
- 2) Remove from the heat and add Bs when the mixture is cool. Stir thoroughly.
