

# Fruity Recovery

## Facial Oil with Estimated SPF 15

ASTON KK146/05

Give your face a fruity boost with 3 supercritical CO<sub>2</sub> extracts of berry seeds.

This facial oil will improve the condition and healthy look of your face as well as protect against harmful UV radiation.

Containing:

- **SUMMER VITA Strawberry Seed Oil** – Supercritical CO<sub>2</sub> extract of Strawberry Seeds that contains the nutritious fatty acids - linoleic, alpha-linolenic, oleic acid and antioxidants in a concentrated form. It is an ideal ingredient for invigorating stressed skin and for nourishing all types of skin.
- **RED ALFA Lingonberry Seed Oil** – Supercritical CO<sub>2</sub> extract of Lingonberry Seeds, rich in essential fatty acids (up to 85% of total fatty acids), plant sterols and antioxidants. It has the highest content of alpha-linolenic acid among the berry seed oils.
- **RED GAMMA Raspberry Seed Oil** – Supercritical CO<sub>2</sub> extract of Raspberry Seeds which contains the highest natural concentration of  $\gamma$ -tocopherol in free form. Optimal ingredient for protecting skin from free radicals and UV radiation.
- **Beantree** – Ecocert approved, plant derived emollient ester with a light skin feel that feels similar to volatile silicones. Beantree has broad compatibility with sunscreens.
- **OmegaLight** – Unique, patented combination of piperonyl alcohol and linoleic acid obtained via enzymatic reaction. It helps to illuminate the skin, clarify and eliminate dark spots and prevent post-inflammatory hyperpigmentation.
